Vector Power Solutions Ltd

# **Environmental Management Policy 2014/15**

Next review date: May 2015

## About Vector Power Solutions Ltd

---

Vector Power Solutions Ltd. offers a wide range of power system protection services. These include design, commissioning, fault investigation, incident investigation and training. These services are available for HV and EHV power systems covering transmission and distribution networks, generation, industrial and transportation systems.

## Policy Statement

---

The Company recognises that a proportion of its activities has an effect on the environment and is therefore committed to complying with relevant environmental legislation, other important environmental obligations and a policy of pollution prevention.

The Company aims to promote environmental awareness, best practice and legal compliance amongst all staff; and to have a positive influence on the environmental performance of contractors.

The Company will take all reasonably practicable steps to ensure that the appropriate environmental factors are taken into account in the course of its design, construction, operation, maintenance and decommissioning activities.
